We have 1 boy and 1 girl Maltese puppies from 4 girls and 3 boys litter. They got best care possible, they've been in family environment and are used to kids and house noises. Parents are super friendly, sleeping with my kids, like cuddles and belly rubs and are a part of our happy family. Both parents are very friendly albeit now with puppies a bit on protective side. Mother is looking well after puppies and they are definitely ready to leave. Puppy is perfect fluffy white.
